29 March 2018

Dear Members,

You may be aware that the Government of West Bengal has increased Liquor License fee at an astronomically high figure effective Financial Year 2018-19. This has severely affected the cost structure of alcoholic beverages for clubs, restaurants and other hospitality outlets.

The club has taken various steps to rationalise the expenses on bar license fee so that the members can be insulated to the best extent possible. As the increase has been manifold, the club has no other alternative but to recover some portion of such expenses, which is fixed in nature, by revising the beverage prices. Accordingly, it has been decided to increase the existing price by 5% flat on all alcoholic beverages with effect from 1st April 2018.

I am confident that you will appreciate the circumstances and the club will continue to have your support, as always.

Kind regards.
